

# LANSBURY LAWRENCE PRIMARY SCHOOL

EFYS HUB    Nursery    Summer Term 1

## FUN IN THE SUN!

At the nursery, we spend lots of our time playing outside in the garden. As the weather becomes warmer and sunnier please ensure that you send your child to nursery wearing sun cream and preferably with a sun hat to protect their neck, head and face.

If your child is full time you may wish to send them to nursery with a bottle of suncream which we can remind them to reapply throughout the day.

We will remind your child to stay hydrated and drink plenty of water. It is helpful if they have their own water bottle with their name on it.

Please ensure that your child wears a t-shirt that protects their shoulders and shoes which cover and protect their toes so that they can run and climb safely in our garden.

## READING IN SCHOOL:

We will be reading lots of different stories together in the nursery at carpet time.

Books we will be reading at nursery:

- The Enormous Turnip
- Handa's Surprise
- Where Bear
- Jack and the Beanstalk
- Jasper's Beanstalk
- Oliver's Vegetables

## OUR FAMILY TREE

In Carle Class, we like to talk about our families and our personal experiences.

We have a family tree display where we have pictures of our families. Having pictures of our families on the wall helps us to feel comfortable and confident in the nursery.

It is also a great talking point! Talking about our lives and our family helps us to understand the world and concepts such as past and present.

If you haven't already sent in a family photo it would be lovely if you could so that I can add it to our display. You can either bring it with your child to the nursery or email me a photo at [aellis@lansbury.net](mailto:aellis@lansbury.net).

## SUMMER ACTIVITIES:

This half term we will be doing lots of fun activities together, some activities will link to the story *The Enormous Turnip*.

Some activities that we will do around our text include:

- Exploring root vegetables
- Visiting the edible garden
- Vegetable Printing
- Making our own paint with fruits and vegetables
- Planting seeds

## RHYME AND SIGN OF THE WEEK:

Each week in nursery we will learn a new nursery rhyme and Makaton sign. This helps us build new vocabulary, develop numeracy skills and improves memory and concentration.

Some of the rhymes we will learn this term are:

- 5 Currant Buns
- 10 in the Bed
- I'm a Little Teapot
- 1 potato, 2 potato
- Little Miss Muffet
- This Old Man

Things you can do at home:

- Sing nursery rhymes with your child at home.
- Ask your child to teach you the sign that they have been learning in the nursery
